

Primer GPS

Adhesion promoter of plasters based on plaster or cement on smooth or slightly absorbent supports

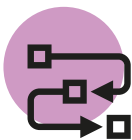

TECHNICAL FEATURES

Specific weight	1,02 Kg/lt
Colour	colourless
Dry residue	25% ± 1%
Viscosity	25 “
Technical performance	200÷250 g/m2 (diluted product)
Drying	10÷20 min (out dust)

Laboratory tests performed at + 20 ° C and R.H. 65%, data subject to variations in different atmospheric and installation conditions.

METHOD OF USE

Mix the product (consisting of an emulsion of resins) in clean water with dilution ratio product + water from 1 3 to 1 6, because of the absorption characteristic of the substrate (smooth concrete, disarmed, dusting, etc.). Evenly distribute the diluted product on the surface to be treated, using a brush or a paint roller.

WARNINGS

Keep the product in containers tightly closed, dry, ventilated and with room temperature ≥ 5 °C. Avoid any addition to the product to be mixed.

The above information is indicative, non-binding and subject to change without notice. Therefore the suitability of the product for the desired result must be verified by the user, who is fully responsible for the use.

PACKAGING

Bin of 10-5 Lt.
